Football & Degree

For Male football players aged between U19/U23 who are unsigned from professional clubs offering a rich experience and hone their skills over a minimum of three seasons. This is done through a meticulous training and games programme carried out by **The SOKKR Group** and the full time Non-League club partner at **Long Crendon FC** and our technical staff, to provide support and pathways either into the professional game and/or support the individual pathways to a career in the industry.

The programme develops the talent of the players in both sporting and academic pathways. A focus on technical, tactical and physical training and personal development and emotional support are fundamental including degree studies. In addition, players play both competitive league fixtures at senior men's level and showcase friendlies to maximise their exposure to football in the UK and international experience.
